

Dear Neil

Its been 24 years since you sexually molested me. I also have been an alcoholic for 24 years. I don't know if there is a correlation time wise, but I think so. I was young and vulnerable when this happened. My father had just died and you was unhappy as a priest. You <sup>were</sup> was fun to be around - hunting, flying, building computers, and traveling.

You always scared me by talking so much about sex and sin. You would always ask me before serving mass @ the hospital if I had masturbated and needed to go to confession. You played sex tapes in the ~~car~~ car when we travel. I should have guessed something was up.

I remember sleeping w/ you on a trip to Canada and waking up w/ you jacking me off - (I was scared to death and afraid to move). Then in Sterling you got me drunk on lime vodka and had the brief case of pornography. Do you remember mounting me + having me hold your penis while you came between my legs. Then there was the trip to Denver where you got 3 of us drunk again + you climbed in my bed early in the morning and started playing w/ me. I could never go w/ you again after that because I couldn't trust you.

What happened to me was tremendous guilt of going to hell. This was something I never talked to anyone about until I was 28. I could never get close to another man in my life, I hate homosexuals, and hated myself. You represented religion and religion was tied to my faith in God, I lost both.

I know you even asked my mom out on dates, but she rejected as she knew ~~it was~~ your actions were immoral. When I was 22 I saw you @ an airport going to a fire. I wanted to kill you. I have had ~~so~~ many emotional hang ups over your perverted actions.

I have isolated myself in life and only wanted to be around women. I would not make or associate w/ male friends.

I don't feel you are responsible for my alcoholism, but you are a cause of alot of my loneliness.

I can forgive you as you was sick and had a problem. I also have to forgive myself as I have carried alot of hate and anger.
